

INFORMATION SHEET

Disinfecting tunnel Clean Tunnel ^{RX}

INTENDED USE:

Clean Tunnel RX is a mobile device designed for shops, wholesalers, hypermarkets, supermarkets, discount stores, as well as companies providing cleaning and disinfection services. Thanks to its built-in trailer and generator unit, it is extremely convenient to use. It gives the possibility to effectively wash and disinfect baskets and trolleys without disrupting the work of the employees of the commercial facility. Clean Tunnel RX Provides high decontamination efficiency thanks to the use of a two-stage disinfection system, using UV-C lamps, as well as a means of destroying bacteria, fungi and viruses.

HOW TO USE:

After placing the shopping cart in the tunnel, we start the start button, uv-c lamps are activated, which illuminate the trolley by eliminating bacteria, fungi and viruses from its surface. The nozzle system then distributes the disinfectant solution over the entire surface of the trolley, disinfecting it and removing the remaining dirt. At the end of disinfection, the disinfected trolley is issued from the tunnel exit.

Technical parameters

Disinfecting tunnel shopping trolleys CLEAN TUNEL ^{RX}

Application	Contactless disinfection of shopping trolleys
External dimensions	1000 x 2300 x 1250 mm (W x D x H)
Passage dimensions	1000 x 1200 x 1100 mm (W x D x H)
Housing material	Stainless steel
Operating temperature	-10 deg. +50 deg. Celsius
Weight	100 kg
Power supply	230V/50Hz
Disinfection method	1. Radiation with UV-C lamps 2. Misting with disinfectant-C
UV-C lamps	Lamps emitting ultraviolet radiation UV-C
Disinfecting agent	Disinfecting agent to remove viruses, bacteria and fungi, it is sprayable. Complete approvals and certifications.
Capacity	ca. 2000 trolleys/23 litres
Container volume	23 litres
Container and pump	Acidproof steel
Number of spray nozzles	12
Operating mode	Automatic
Country of origin	Poland
Warranty	12 months
